Portfolio: https://bugzorc.github.io/webdev

Hi, I am a resourceful and detail-oriented web developer with a strong grasp of PHP, HTML, CSS, JavaScript, and MySQL. I have developed static and dynamic websites, integrated cloud services such as Cloudflare into sites, and optimized sites for SEO. I am committed to building efficient, scalable, and secure web solutions, while having a strong passion for learning and solving real-world web problems.

TECHNICAL SKILLS

- Languages: PHP, HTML, CSS, JavaScript (StaticJS)
- Databases: MySQL
- Web Servers: Nginx, Apache
- Cloud/DevOps: Cloudflare, basic CI/CD (if applicable)
- Tools: GitHub, SEO tools (e.g., Google Search Console, Lighthouse)
- Others: JSON handling, Website maintenance, Responsive Design

Work Experience

- Freelance Web Developer
- Built and maintained responsive websites that incorporated PHP, HTML, CSS, and JavaScript.
- Optimized performance through server configuration with Nginx and Cloudflare.
- Managed MySQL databases and handled JSON data structures.
- Implemented SEO techniques to enhance site visibility and traffic.
- Customized solutions to meet specific client requirements.
